

Nutreco is a global leader in animal nutrition and fish feed. Our advanced feed solutions are at the origin of food for millions of consumers worldwide. Quality, innovation and sustainability are guiding principles, embedded in the Nutreco culture from research and raw material procurement to products and services for agriculture and aquaculture. Experience across 100 years brings Nutreco a rich heritage of knowledge and experience for building its future. Nutreco employs almost 9,300 people in 30 countries, with sales in 80 countries.

At Nutreco we believe in the value of **research & development** as a source of innovative product concepts and advances in technology, and as a resource for providing our customers with valuable advice and technical support. Our research & development makes an important contribution to improving the sustainability of Nutreco and its customers. Our commitment to R&D is fulfilled through our seven research centres in Europe focusing on various aspects of Nutreco activities.

To strengthen our R&D team at the Swine Research Centre,
Nutreco is currently looking for

Senior Researchers

The job

As a Senior Researcher for the Swine Research Centre you develop tools, products and concepts for the operating companies of Nutreco. This is done in close cooperation with the innovation managers of the business units within Nutreco.

In this position you will:

- initiate and lead projects, carry out literature studies, set up trials at our own research facilities and transfer the acquired knowledge in presentations
- carry out scientific nutritional and physiological studies
- maintain and initiate contacts with universities/institutes and with our internal businesses
- coach our Junior Researchers and international students

The working location is Boxmeer, the Netherlands

The positions offer the opportunity to:

- join an established team of researchers
- work and operate in an international, progressive, competitive and highly innovative environment, close to practice
- use of own research facilities
- play an important role in identifying, testing and implementing new concepts
- interact with, and travel to, other company sites and conferences throughout the world
- follow internal training programs
- work in a nice working atmosphere

Who are we looking for?

- You have a PhD degree or equivalent research experience in animal science or animal nutrition
- Your knowledge of nutrition, physiology and feed evaluation / ration calculation is above average and you combine this with the creativity to make this knowledge practically applicable
- You are a team player, expressing yourself clearly when transferring knowledge and ideas (i.e. presentations)
- You are research driven, analytically strong and result oriented
- Your English is fluent

How to apply

For further information on this vacancy, please contact Mr Hubert van Hees, Manager Swine Research Centre, telephone +31 485 581 876. You can send your written application to Mrs Elvira Bennenbroek-Hurkmans (Human Resources Officer), Nutreco Nederland B.V., P.O. Box 220, 5830 AE Boxmeer, The Netherlands or via e-mail to recruitment@nutreco.com.
